

## Yeldana Sadykova

### Junior Software Tester

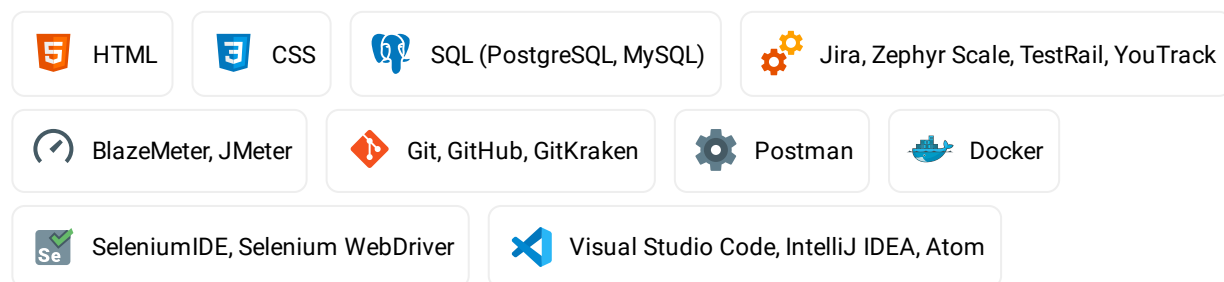

Prague, Czechia

I completed a 3-month Software Tester boot camp at SDA where I developed extensive skills in software testing and quality control. I have a passion for quality assurance and I am highly motivated to develop my skills and progress my career in this area.

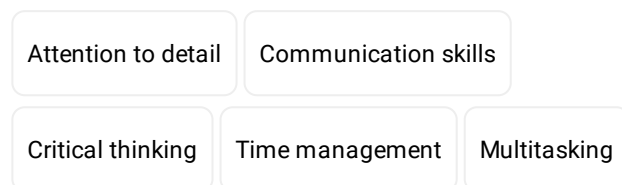

I am a fast learner keen to master new technologies and methodologies. I am a responsible and detail-oriented team player who takes pride in delivering high-quality work.

- Testing tools
- Testing classes
- Agile, Scrum
- Introduction to programming
- BDD Fundamentals

2018 - 2021

### Czech University of Life Sciences Prague

Bachelor's degree - Nutrition and Food

## Projects

### Final Project at Software Development Academy

The final project is aimed at testing the pet store website. The website is designed to allow customers to buy pets online and includes features such as registration, product search, and purchase. The scope of the project includes testing the website's functionality, usability, accessibility, and security. This project involved manual testing techniques and test management tools. The test plan includes a list of test cases that were used to evaluate the website's functions and features. All defects found during testing are presented in this document. Additionally, recommendations for improving the website's usability and accessibility will be provided.

**Used technologies:** Jira, Trello, Selenium IDE, Selenium WebDriver, TestRail, GTmetrix, Lighthouse
